Baratam Rohitha

9347687447 rohitha0803@gmail.com LinkedIn GitHub

Professional Summary

B.Tech student specializing in Computer Science and Data Science with experience in Java programming and data analytics through virtual internships and academic projects. Familiar with programming fundamentals, object-oriented programming, database management, and software development concepts. Interested in designing efficient software solutions, strengthening problem-solving skills, and contributing to scalable technology systems.

Education

Mohan Babu University Aug. 2024 – May 2028
Bachelor of Technology in Computer Science with a Specialization in Data Science *India*

Relevant Coursework

Object-Oriented Programming	Database Management Systems	Operating Systems
Data Structures and Algorithms	Computer Networks	Probability and Statistics

Experience

CodeAlpha June 2025
Java Programming Intern *Virtual*

- Completed the CodeAlpha Virtual Internship Program in Java Programming from June 1 to June 30, 2025.
- Developed Java-based projects, including a Student Grade Tracker, Stock Trading Platform, and Java Chatbot.
- Applied Java programming concepts to implement application logic, manage data, simulate stock transactions, and generate responses to predefined user messages.

Tata Forage February 2026
GenAI Powered Data Analytics Job Simulation *Virtual*

- Performed exploratory data analysis and risk profiling to identify patterns and assess potential customer delinquency risks.
- Explored AI-based delinquency prediction to support data-driven risk assessment and collections decisions.
- Prepared business reports and applied data storytelling techniques to communicate insights for collections strategy.
- Worked on implementing an AI-driven collections strategy as part of the job simulation.

Projects

Customer Behavior Analysis Dashboard | *Power BI, Excel, SQL*

- Developed an interactive Power BI dashboard to analyze customer purchasing behavior and business performance.
- Designed visualizations to track sales, revenue, customer demographics, subscription status, and product categories.
- Created interactive filters using DAX to support data-driven decision-making.

Data Science Digital Library | *Data Science, Digital Resources*

- Developed a project focused on organizing and accessing digital learning resources related to Data Science.
- Structured digital resources to support convenient access to learning materials and subject-related information.
- Applied project development and organizational skills to create a digital resource library.

Technical Skills

Programming Languages: Java, Python, C++

Computer Science Fundamentals: Object-Oriented Programming, Data Structures and Algorithms, Problem Solving

Databases: SQL, Database Management Systems

Developer Tools: Git, GitHub

Data Analytics: Data Analysis, Data Cleaning, Exploratory Data Analysis, Power BI, Microsoft Excel

Professional Skills: Teamwork, Communication, Adaptability, Time Management

Leadership / Extracurricular

Departmental Club Hackathon – 1st Place

Certifications

- **CodeAlpha – Internship Completion Certificate:** Completed internship activities and practical project work.
- **Tata Forage – Internship Completion Certificate:** Completed virtual job simulation learning activities and assigned tasks.
